Key Project Works:

HPE Solution Sizers

Project Name : HPE Solution Sizers
Duration : Jan 2019 – Till now
Software : ReactJs, Redux, Grommet, Visual Studio Code.
Role : Developer-Team Member

Brief description of the project:

HPE Solution sizers are designed to assist users in identifying the HPE HW and SW needed to support a workload defined by the user. The tool will produce a general sizing BOM that can be used for budgetary quoting and as the foundation for creating live order quotes. Currently there are 4 tools under this project for SAP, Big data and converged systems. `

Responsibilities:

- Developing new user-facing features using React.js
- Proposing screen designs and translating into the code after approval.
- Building reusable components for online sizer tools.
- Translating designs and wireframes into high quality code
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers.
- Unit testing, Issue fixes and QA Support.

EASEIT:-

Project Name : EASEIT
Duration : Jan 2019 – Dec2019
Software : Angular 7, HTML5, CSS3, Bootstrap3, TypeScript, SpringBoot, MongoDB.
Role : Angular Developer-Team Member

Brief description of the project:

Ease-It is developed to provide the clients to reduce/eliminate excel work in order to monitor the projects and portfolios under him. It will fetch all the details from tools which ever used by the specific project or portfolio.

Responsibilities:

- Developing new user-facing features using Angular 7.
- Building reusable components in Angular 7.
- Translating designs and wireframes into high quality code
- Unit testing, Issue fixes and QA Support.
- Proposing screen designs and translating into the code after approval.

TRAVEL GUARD

Project Name : TRAVEL GUARD
Duration : Jan 2018 – Dec 2019
Software : AEM, HTML, CSS, Javascript, JQuery.
Role : Developer-Team Member

Brief description of the project:

AIG-Travel Guard project is to provide more authoring capabilities to the Tavel Guard Digital team in user purchase-path flow. TG is a North American travel insurance provider. It specializes in providing travel insurance, assistance and emergency travel service plans.

Responsibilities:

- Working closely with Business teams on aligning business requirements with technical ones.
- Develop the style systems for AEM components using LESS.
- Form validations using javascript and jQuery.
- Responsive web design
